

## The legal network supporting our armed forces community.

One call puts you in touch with one of our independent Member Firms.

Personal Injury is the legal term for an injury or illness that has been caused, or made worse, by someone else's negligence.

If you have suffered an injury during your service, there are several routes open to you to bring a claim for compensation:

[A Personal Injury claim](#)

[Armed Forces Compensation Scheme \(AFCS\)](#)

[War Pension](#)

For Personal Injury claims, you will normally need to prove that your injury could have been avoided and/or was someone else's fault.

Whatever the reason for your injury, whether it is physical or psychiatric, our specialist solicitors are here to help you.
